

Gbubemi Attah

Fullstack Software Engineer

hello@gbubemi.dev · gbubemi.dev · github.com/bube054 · linkedin.com/in/gbubemi-attah-695b70205

I solve problems with code — Go on the back end, React & Next.js up front. Currently building products full-stack at Nemtify & EvoCloud, and shipping open-source Go libraries on the side.

EXPERIENCE

2022 — Now · Full-time

Fullstack Software Engineer — Amorserv | Nemtify

Build and maintain product features across the stack — Next.js front-ends, TypeScript APIs, and the data layer behind them.

2024 — Now · Part-time

Frontend Web Developer — Evocloud

Build and maintain the Evocloud Website using — Next.js front-ends, TypeScript APIs, and the data layer behind them.

2022 — Now · OSS

Open-Source Maintainer — Independent — Go ecosystem

Author & maintain jsonvx, validatorgo and ginvalidator — well-tested Go libraries with full documentation.

2022 — Now · Contract

Freelance Web Developer — Various clients

Delivered React & Next.js sites and web apps for businesses, non-profits and ministries — design to deployment.

OPEN SOURCE

29 public repositories · **54 GitHub stars** · github.com/bube054

validatorgo 25 stars · Go

A Go library of string validators and sanitizers, based on the js library validator.js

jsonvx 11 stars · Go

jsonvx is a highly configurable JSON parser, querier, and formatter for Go.

go-js-array-methods 10 stars · Go

This comprehensive module provides an array (no pun intended) of helper functions specifically designed to empower developers in working efficiently with golang slices. It encompasses popular methods like Map, Filter, Reduce, ForEach, Some, and many more, offering streamlined functionalities to enhance your golang coding experience.

ginvalidator 8 stars · Go

A Gin middleware for validating requests, similar to the Node.js package github.com/express-validator/express-validator

SKILLS

Backend: Go (Golang) · Gin · Node.js · REST APIs · PostgreSQL

Frontend: React · Next.js · TypeScript · Tailwind CSS · Redux

Infra & Tools: Docker · Git & GitHub · CI / CD · Vercel · Linux

Practice: Testing & TDD · API Design · Open Source · Code Review · Docs

SELECTED PROJECTS

Amorserv Next.js · TypeScript · Tailwind

IT services & staffing platform — full product engineering, end to end.

DreamCare Rides React · Node.js · Booking
Non-emergency medical transport booking & scheduling experience.

EvoCloud Next.js · TypeScript · Cloud
Cloud platform marketing & product site with rich interactive UI.

Bales of Mercy React · Non-profit
Non-profit foundation site — donations, programs, and storytelling.

Right Path Ministry Next.js · Vercel
International ministry website — events, sermons, and community.

Gypsy Auto React · Web App
Auto-service web app — listings, bookings, and a clean dashboard.
